

Vinyl Record Promotional Products

This catalog contains details about our custom vinyl record products, designed and fabricated in the U.S.A.

This manufacturer up-cycles over 250,000 vintage vinyl records every year in their factory - saving thousands of pounds of material from the landfill! They also utilize energy-efficient manufacturing, and partner with local vendors to reduce their carbon footprint.

Your logo or custom artwork can be featured as a full-color record label on the items - additional customization is also available!

Several of these products can feature an original vintage record label paired with your custom artwork - each original record label is unique, because they were cut from actual recycled vintage vinyl records! Leaving the original record labels on one side provides variety to the finished products, and informs the recipient of the product that the material used to create these items is repurposed and authentic. You can also brand these vinyl record products with your own artwork on both sides and skip the vintage labels - it's completely up to you!

Take a look inside of this catalog to see the manufacturer's full line, and let us know if you have any questions!

LP Record Clocks

Customizable with unique graphics and skylines - or design your own cut-out!

Made from 12" diameter LP vinyl records.

Features your design or a stock design with a full-color custom record label.

White aluminum hands. Quartz motor requires single AA battery.

Individually packaged in a corrugated, windowed display box.

2-3 week turnaround time. 12" diameter 1.5" thick.
